RIO AGAIN SMELLED.

Rebels Reconnoitre the Bombardment of the City.
BUENOS AIRES, Jan. 12.—Advices from Rio Janeiro state that the bombardment of the city has recommenced. There is much feeling among the inhabitants, both of the city of Rio de Janeiro and the provinces, against President Peixoto. This has been contributed to by the action of Peixoto in sending many foreigners for service under the Brazilian government. Men from the Nitro-hero have been engaged in a serious disturbance at Pernambuco.

They were where at that place and after a heavy drinking bout proceeded to make themselves obnoxious. Various measures were resorted to to overpower them, and in the struggle two of the Nitrohero's men were killed. The other men of the party will be dealt with vigorously by the Nitrohero's command. It is reported from Rio Grande do Sul that the government troops have defeated the insurgents at Itajubá.

WILLIS' AUTHORITY.

Constitutional Lawyers Debating the Question of His Validity.

WASHINGTON, Jan. 12.—The constitutional lawyers of the house are discussing the question whether the action of Minister Willis in requesting the Hawaiian provisional government December 12 to retire will stand, President Cleveland having referred the entire subject to congress December 18. Judge Culbreth, chairman of the judiciary committee, has an authority on legal questions, holds that Minister Willis was bound by early instructions until he received notice that they were changed. It made no difference that the president had changed his mind, as the fact of December 18, as this fact did not become known to Minister Willis until December 26, so that up to that time he had no authority but to carry out his early instructions.

FREDONA, Kan., Jan. 12.—The Missouri Pacific south-bound passenger train #99, passing here at 5 p. m. was fired on by five supposed train robbers near Monett, Kan., at 7 o'clock last night. The train was in charge of Conductor Holmes and Engineer Wilson. The first noticed was some rocks thrown along on the track and the displaying of a red lantern. A demand to Engineer Wilson to stop was made with an oath, but Wilson, suspecting danger, did not stop, but opened up the engine and pulled through to Sedan.

LONG ISLAND CITY, N. Y., Jan. 12.—About sixty men were thrown into New York creek last night by the collapse of a section of a temporary draw bridge over the creek connecting Barclay avenue, at Laurel Hill, with Meeker avenue. JERRY SIMPSON

Makes a Striking Speech in the House.

He Holds Up an Old Farmer's Coat

MADE OF SHODDY RAGS

Said Jerry, "the Result of Protected Industries."

WASHINGTON, Jan. 12.—It is learned that President Cleveland will send a second message to congress, accompanying the additional Hawaiian correspondence, in which it will be held that the ends of justice can only be served by the restoration of Queen Liliuokalani to the throne.

The correspondence was not made public yesterday because the president was working on this message. After stating his position, the president will leave the matter entirely in the hands of congress, and whatever additional steps may be taken will depend upon the attitude of that body.

Such a message from the president is consistent with his entire action in the Hawaiian controversy. It will force to an issue the question and necessarily bring an expression from those Democrats who have up to this time remained silent.

JERRY SIMPSON FOR FREE TRADE.

The Leader of the House Populist

Ex-Cons Talks on the Case.

WASHINGTON, Jan. 12.—In the tariff debate yesterday Mr. Simpson of Kansas said that while he intended to vote for the Wilson bill, there were many provisions in it which he did not approve of. He was not one of those who ever believed the Democratic party, brought to the task, would carry out its pledges, for he knew, while there were honest Democrats, the action of the Democratic party, like that of the Republicans, was controlled by the money power. "The People's party," said he, "stands on a platform pledged, as he interpreted it, 'to the principle of free trade.' What I say here today in the discussion of the bill shall be from the standpoint of a free trader."

He believed the cause of evil times could be easily discovered if protection would direct themselves of party prejudice. It had not come suddenly, but had been the result of causes which began far in the past and would have come long ago had it not been for the wonderful resources of the country and the wisdom and industry of the people. The interference burden put upon the farmer class through the indirect system of taxation had been one of the potent causes which had produced the present conditions. The farmers of the country in 1860 owned 50 per cent of the wealth, 25 per cent in 1880, 10 per cent in 1890, and 5 per cent in 1892.

It was at this juncture Mr. Simpson created great applause and amusement by treating the house to the object lesson of his disheveled overcoat. He proposed to show the house exactly what the poor people of the country did wear. Reaching down under his desk he seized a tattered old overcoat, fringed at the edges and begrimed with patches. He held it on high, while the house and the galleries cheered.

"I bought that of a farmer," said he, "who told me he had left home at 12 o'clock at night and driven twenty-five miles to sell his produce in your boasted home market. There, as Mr. Cleveland said, is an object lesson. [Laughter.] There is a sample of that men wear under the beneficent system of protection," he continued. "It is made of shoddy and rags—see?" Here he ripped it up the back. "Yet," he added, "I can find its duplicate on the backs of a million men in this country."

"Where did he buy it?" asked Mr. Cannon, representative of Illinois. "He bought it a year ago in this city for \$8 and I bought him another shoddy coat to take its place for \$10.40." [Laughter.]

"Is it American or imported?" asked Mr. Cannon. "I don't know," replied Mr. Simpson. "I don't care, but it is the product of American protection. No one can deny that." [Laughter and applause.] Mr. Simpson concluded with an appeal to the people to bring out the old and rag in the new order of things. Many members tendered him their personal congratulations when he sat down. Mr. Daniels, Republican of New York argued against the bill. Mr. McCall, Republican of Pennsylvania, followed, and Mr. McKeljohn, Republican of Nebraska closed the debate for the afternoon session in opposition to the bill.

At the evening session Mr. Wadsworth, Republican of Indiana and Mr. Hermann, Republican of Oregon antagonized the bill and Mr. English, Democrat of New Jersey, supported it. The latter, who was accounted one of the kicking Democrats, commended the general scheme of the measure, and while he thought it would be made to appear as having been accomplished largely through Republican instrumentality and would be to the benefit of the Republican party.

HORNBLOWER'S NOMINATION.

Members of the Republican National

Committee Want Him Confirmed.

WASHINGTON, Jan. 12.—Probably the most unexpected development in connection with the Hornblower confirmation which has yet to come to light is the action of the executive committee of the Republican national committee in officially seeking to secure his confirmation. It was done at the suggestion of Mr. Bliss of New York, who urged the confirmation of the nomination, especially if it could be made to appear as having been accomplished largely through Republican instrumentality and would be to the benefit of the Republican party.

Ex-Chairman Carter, Chairman Mareley, Mr. Bliss and Mr. Robert have been laboring with Republican sen-

ators who are supposed to be unfriendly to Hornblower's confirmation, to cause them to change their aims and vote for confirmation. It is said they met but little encouragement, and Mr. Carter is quoted as saying after his conversation with a prominent Western senator that he had come nearer being convinced he was wrong than he had come to bringing the senator over to the Hornblower side of the question.

Want the Territories Admitted.

WASHINGTON, Jan. 12.—The principal business accomplished at yesterday's session of the executive committee of the national Republican committee was the adoption of two resolutions which the members consider a fine stroke of party policy. The first demands the admission of Utah to statehood and the other favors the admission of all the territories to statehood.

THE DALTON GANG.

They Want to Compromise With Uncle Sam and Tail Gait.

WASHINGTON, Jan. 12.—The proposition to compromise with the Dalton gang is now pending before the department of justice. It is on terms calling for a two years' sentence for each member of the gang, this to settle all.

The matter is placed before the attorney general by United States Marshal Nix of Oklahoma. Marshal Nix represents to the attorney general that some time ago he was reached by the members of the gang through a third party and this general proposition was submitted.

Those interested in making the offer are as follows: Bill Dalton, Bill Dalton, George Newcomb, Dynamite Bill, Arkansas Tom and Slaughter King. Through their friend they represent to Nix that they would like to make peace with the government and the public at large, and if they can be allowed to appear in court and plead guilty and be given two years each they will do so and end the business. They further specify that if the proposition is accepted by the department of justice they will suspend operations at once and wait patiently until March, when court convenes, when they can be sentenced and start on their terms of two years in the penitentiary.

TRADE IS BETTER.

Says Dun in His Weekly Report.

Prevalent Impression that Wilson Bill After All

WON'T BE SO VERY BAD.

The Industrial Output Has Been Greatly Increased.

New York, Jan. 12.—R. G. Dun's Weekly Review of Trade says: "Business has improved since the new year, and the gain is no longer visible only in speculative markets. It is the only kind of gain that has in it the possibility of lasting, because it is based upon actual increase in the production of industries. As all rejoice to see it there is perhaps a little disposition to reckon the gain a little greater than it is as yet, but several large establishments that have started part force hoping to increase, and more smaller works have started than have stopped. Orders from dealers whose stocks approach exhaustion form a prominent cause; another is the widely prevalent impression that action at Washington will be more satisfactory than many have expected, and a belief that in any case the situation will not be changed until goods now in the works can be marketed has weight in some trades. Whatever the cause, even a moderate change is most cheering."

"The output of pig iron January 1 is reckoned by the Iron Age at 90,087 tons weekly, which is slightly less than December 1, though the Pittsburgh authority makes it a little larger. In either case it is from forty-one to forty-three per cent less than a year ago, and stocks of unshod pig iron increased 19,457 tons in December, though they decreased as much in November. Some more furnaces begin production this month, and prices show no recovery."

"Sales of wool for the week are 2,785,700 pounds at the three chief markets, against 2,893,590 last year, but there is more inquiry from worsted and carpet manufacturers, some having started machinery. Overcoats are 10 to 15 per cent lower than a year ago, but the deliveries of dress goods are larger than of late, and the demand is more urgent. In cotton goods there is no definite change. Shipments of boots and shoes for the week were nearly a quarter smaller than a year ago, but there is growing confidence that the business must soon increase."

"Wheat is a shade weaker, though Western receipts are 1,769,000 bushels for the week against 3,834,000 a year ago. Atlantic exports are only 670,000 bushels, against 1,585,000 last year. Stocks in slight decrease, but little and government estimates get little attention. Corn is naturally weaker at very large receipts, though exports sixty per cent larger than a year ago."

"Bank clearings also indicate that a large gain has occurred, as yet in the volume of business, being twenty-one per cent smaller than a year ago. Money continues to pour into this city as it would not if trade approached normal activity, and the demand is so narrow that loans are \$100,000 below deposits, but little attention is paid to the fact."

"Failures for the past week have been 474 in the United States, against 280 last year, and 57 in Canada, against 20 last year."

Bank Clearings.

New York, Jan. 12.—The following list, compiled by Bradstreet's, shows the total clearings at the cities mentioned for the past week, with increase or decrease as compared with the corresponding week last year:

How Verdi Passes His Time.

In spite of his 80 years, Verdi takes a horseback ride of nearly two hours' duration after dinner every day, and on his return plays a game of cards with some member of his family. All the musical work he does is accomplished during the morning, and he talks as confidently of his past opera as if he were half a century younger than he is. His leisure time, apart from the occupations mentioned above, is devoted to the reading of poetry and philosophy.—Paris Herald.
